COP21/CMP11
Paris, France
A historic Agreement

- A new chapter in international climate governance and action
- A win for multilateralism
- A strong signal to policy makers, investors and businesses
- Great example of EU unity and leadership
Main elements of the Agreement

- Emission reductions: national contributions and domestic measures by all Parties
- Transparency and accountability: common framework, nuanced differentiation
- Global stocktake in 2023, then every 5 years
- Solidarity package: finance, adaptation, loss and damage, technology and capacity building
The implementation challenge

- Agreement signed on 22 April
- EU ratification imminent! Entry into force at COP22
- Key areas for 2016: INDC implementation, MRV and capacity building, finance, adaptation
- Stepping-up pre-2020 action – NAMAs
- EU and its Member States to step up climate funding
- EU to implement its own commitment: 2030 Package
